

AMENDMENTS TO EXECUTIVE ORDER NO. 11 S. 2020: THE GENERAL SANTOS CITY GUIDELINES TO MINIMIZE THE POSSIBLE TRANSMISSION OF COVID-19.

1. The local government unit of General Santos City, along with the different national line agencies such as the PNP and the AFP, will implement a Preventive Restriction on Non-essential Travels (PRNT) and if necessary, a Preventive Suspension on Non-essential Travels (PSNT), to ensure that the movement in and out of the city will be minimized for easier monitoring.
2. The local government unit will be employing a skeletal force in all their office starting on Monday, March 16, 2020 until further notice.
3. All classes on all levels, in both private and public schools, will be suspended starting on Monday, March 16, 2020 until further notice.
4. The local government is requesting all residents of the city to avoid mass gatherings—including church services, parties, cockfights, derbies, large congregations, group gatherings and other civic gatherings, among others. All permits issued for gatherings or other purposes affected are hereby suspended. Permit holders are allowed to appeal the suspension in the future at no additional cost.
5. Public transport drivers and operators are also required to use mask to protect the general riding public.
6. A curfew from 9PM to 4AM will be implemented to minimize non-essential person-to-person contact. Workers and other professionals, and those that can show proof of the necessity to move during the curfew period will be exempted. Medical workers, emergency responders, and other health professionals are also exempted.
7. Travelers coming from Manila in the next 48 hours will undergo monitored self-quarantine, because of the pending community quarantine.
8. The Price Monitoring Council will convene to ensure consumer protection through comprehensive monitoring of the implementation of the Price Freeze and applicable portions of the Price Act.
